Our spotlights are available in surface-mounted, semi-recessed or track mounted versions, with wide to focused beam angles. They can be used for presentation, in retail situation, or in museums. Very powerful and energy-efficient illumination. The spotlights are great for accentuation, thanks to the precise alignment of the light points. They can be glare-reduced by applying optical accessories such as the Honeycomb Louver. The rotating design allows the light to be turned in the required direction.
