- 5** Finished

Pendant Installation

PURATI
Filo Linear Series

1 Make the 220V wire go through the ceiling

⚠ Do not touch with wet hands or there is a risk of electric shock

2 Prepare all the installation accessories

3 Fasten the hardware with dry wall screws

4 Slide the rectangular screw into the profile, adjust it to the corresponding position, and tighten the thread locking device

5 Connect the suspension cable to the corresponding position of the ceiling

⚠ (Please make sure that the suspension cable is firmly installed)

6 Connect the power cord

7 finished

1 Make the 220V wire go through the ceiling

⚠ Do not touch with wet hands or there is a risk of electric shock

2 Make a slot the same size as the profile on the ceiling

⚠ Dimensional tolerance of slot $\pm 0.5\text{mm}$

Slot size BS5470 L(Profile length+9mm)*W61mm*H110mm

e.g. : The 9mm of BS5470 refers to the thickness of both end caps (2*3.5mm) + 2mm gap

3 Slide the recessed accessories without trim into the profile and then fix it on the profile (adjust the height of recess)

4 Install the profile in the slot of ceiling, and then fix it on the ceiling by recessed clip without trim

5 Cover the luminous surface with masking tape

6 Plaster the ceiling to fill the gap

7 Tear off the masking tape and the installation is finished

⚠ Please stop using if there are abnormalities like smoke or burn t flavor occur from the fixtures

- 1 Internal connecting parts**
Remove the end cap, and then use internal connecting parts to link luminaires

- 1 Whole lamp external connection with end cap**
Use the whole lamp external connecting parts to link the Luminaires

- 2 Whole lamp external connection without end cap**
Use the whole lamp external connecting parts to link the Luminaires
