

Fusi 46 Wall Duo, White, 36°, 4000K, Phase cut

<https://purati.com/product/fusi46spotwallduo/>

DESCRIPTION

The wall-mounted luminaires offer a discreet and functional solution to general or accent architectural lighting. The luminaires provide a high level of visual comfort. A special lens diffuses light and directs it on the wall upwards and downwards with different beam angles. The lens covers the source of light and provides homogeneous and ambient lighting. Our wall lights provide seamless integration with their surroundings, with subtle light in the required space. They bring basic brightness to the room or accentuate the wall with visible light shapes. Any glare can be reduced by applying optical accessories such as the Honeycomb Louver

QUICKINFO

GENERAL

Finish	White
Material	Powder Coated Aluminium
