PURATI.

Production

The close collaboration between
Purati and npk design. Together,
our mission is to create the
great products & bring new
lighting solutions for architecture.

npk design b.v.

Our designs are made by npk design b.v. is an award-winning design agency which has developed a wide range of successfully products for us more than 10 years.

From Slice series to Fusi series, has been gaining prestigious international design awards such as IF Design Award, Red Dot Award, German Design Award.

Purati

Performance, Uniqueness, Responsibility,
Aesthetics, Technology, Innovation (PURATI).
Those are our core value and foundation.

Our lights save space, save resources, and
offer greater quality.

We offer architectural lighting of premium
quality and performance and with unique
design.

VERSO

Designed by npk design b.v.

Built for modern working and learning space

The Verso series by European design is an independent office luminaire offering outstanding efficiency and maximum visual comfort. It's a direct and indirect lighting. Available in a variety of mounting options: for pendant, ceiling/wall surface mounted.

Opal

The image displays two lighting diffuser options against a dark background. On the left is the 'Opal' diffuser, which is a smooth, white, rectangular panel with rounded corners. On the right is the 'Microprismatic' diffuser, which is a white, rectangular panel with a fine, grid-like texture and rounded corners. Both panels are shown from a slightly elevated perspective, highlighting their thickness and the way they catch the light.

Microprismatic

Two options for diffuser

General illumination brings harmonious brightness to any space.
UGR <19 version fit perfectly for office lighting use

Explore the essence of Verso series

The impressive design

Curved aluminium, rounded ends and slim trim design

Modern
