

The image features four cylindrical pendant lights hanging from a dark ceiling. Two are white and two are black. They are arranged in a staggered pattern. The white lights are illuminated from the bottom, casting a warm glow. The black lights are also illuminated from the bottom, but the light is less visible. The background is a dark, slightly textured surface.

PURATI.

Production

The close collaboration between
Purati and npk design. Together,
our mission is to create the
great products & bring new
lighting solutions for architecture.

npk design b.v.

Our designs are made by npk design b.v. is an award-winning design agency which has developed a wide range of successfully products for us more than 10 years.

From Slice series to Fusi series, has been gaining prestigious international design awards such as IF Design Award, Red Dot Award, German Design Award.

Purati

Performance, Uniqueness, Responsibility,
Aesthetics, Technology, Innovation (PURATI).
Those are our core value and foundation.

Our lights save space, save resources, and
offer greater quality.

We offer architectural lighting of premium
quality and performance and with unique
design.

BEAM

Simple. Versatile. Efficient

The Beam Collection is classic tubular structure and contemporary design, making it a versatile lighting fixture that can seamlessly integrate into any interior space. Designed for visual comfort and lumen performance.

A wide range of accessories

4 Baffle finish
(white, silver, black, gold)

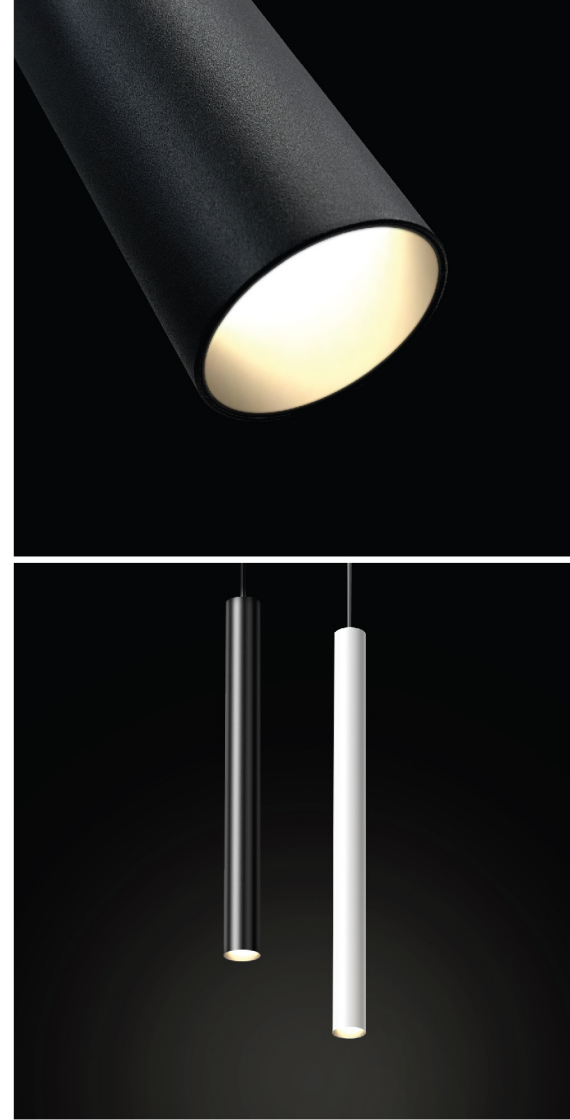

Explore the essence of Beam series

Quality Design

The simple cylindrical design with extremely precise beam angles, for both general and accent lighting
Luminaire housing and Baffle made of aluminium
Designed for easy mounting with no visible screws

Visual comfort

A deep-set light source and excellent optics offering maximum cut-off angles make it great comfort with $UGR < 19$
High power LEDs for maximum efficiency
(up to 1000lm in $\varnothing 45\text{mm}$ tube luminaire)

3 secondary
optics

Honeycomb Lens for reduced glare
Soften Lens for softening beam edges
Linear Lens for elliptical beams

Multiple mounting options

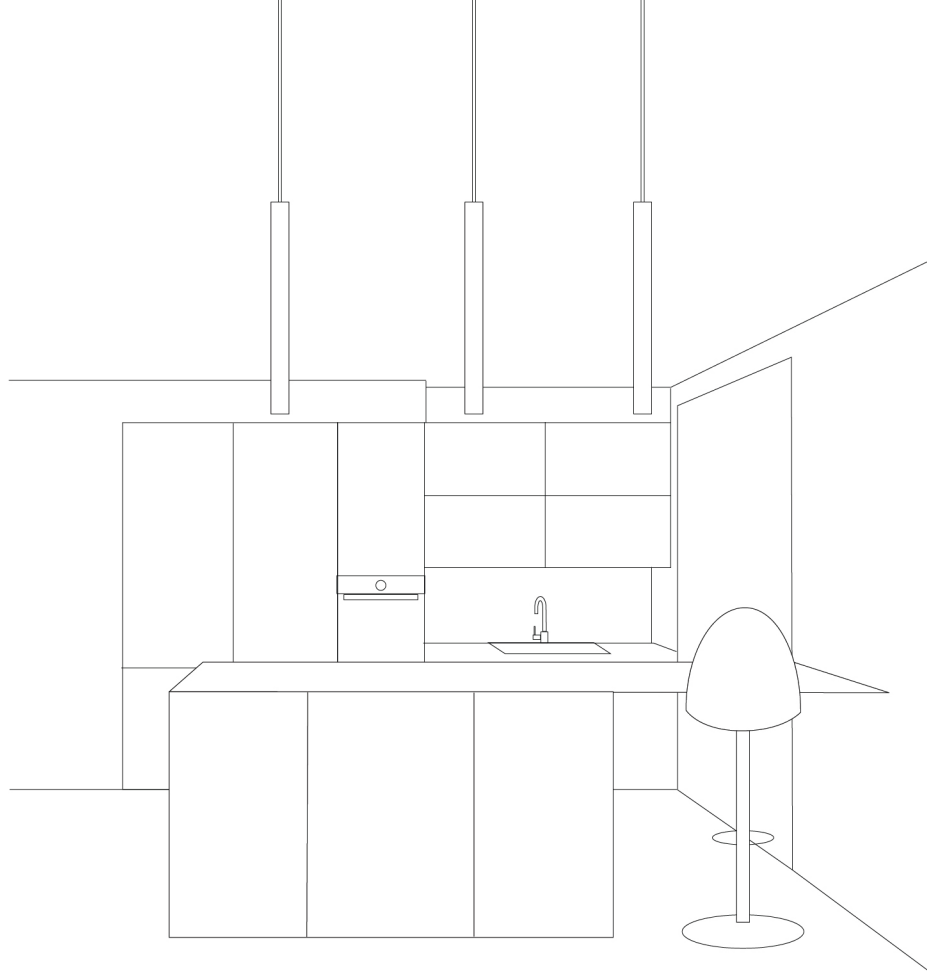

The Beam Collection comes with 5 mounting and various lengths 450mm, 600mm, 800mm to suit the specified lighting requirements.

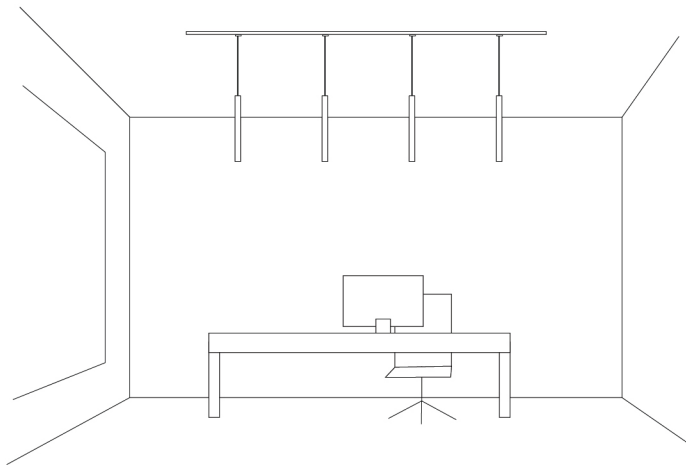

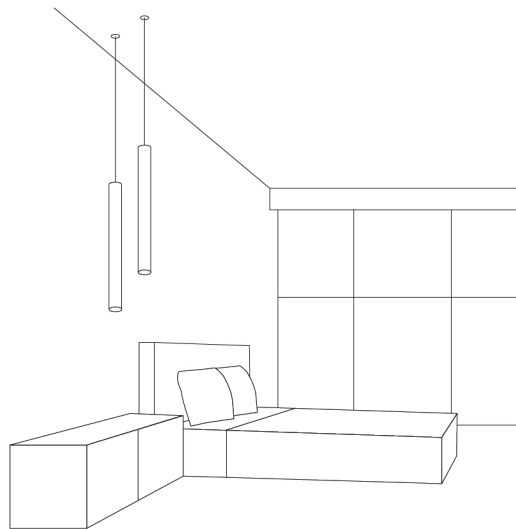

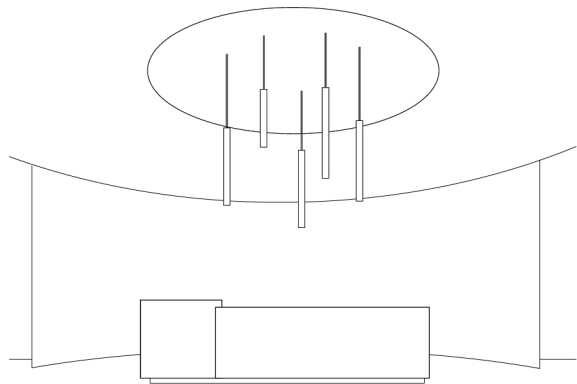

Surface mounted /
Ceiling mounted suspension /
Recessed suspension /
Trimless recessed suspension /
Track mounted suspension

Areas of application

Office
Residential
Retail
Hospitality
