VERSO

Designed by npk design b.v.

Built for modern working and learning space

The Verso series by European design is an independent office luminaire offering outstanding efficiency and maximum visual comfort. It's a direct and indirect lighting. Available in a variety of mounting options: for pendant, ceiling/wall surface mounted.

The image displays two lighting diffuser options against a dark background. On the left is the 'Opal' diffuser, which is a smooth, white, rectangular panel with rounded corners. On the right is the 'Microprismatic' diffuser, which is a white, rectangular panel with a fine, grid-like texture and rounded corners. Both diffusers are shown from a perspective that highlights their depth and the way they would be installed in a lighting fixture.

Opal

Microprismatic

Two options for diffuser

General illumination brings harmonious brightness to any space.
UGR <19 version fit perfectly for office lighting use
